

## Solar CFL Lantern

Module Rating	: 12V 10Wp
Module type	: Crystalline
Battery Rating	: 12V/7Ah Lead Acid Battery Rating C/20
Type	: SMF [Sealed maintenance free type]
Lamp Rating/type	: 7W CFL, Cool White
Lumen output	: 370 Lumens $\pm$ 5 % prior to 1000 cycles & $\pm$ 10% after 1000 cycles.
Electronics Inverter Waveform	: Quasi Sine Wave
Crest Factor	: < 1.7
Lamp Preheating	: Provided
PCB Installation	: Solder Free
Frequency	: 20-35 KHz
Efficiency	: > 80%
No load current	: < 1 mA
Battery low cutoff voltage	: 11.2V
Load reconnect voltage	: 12.6V
Charging Indication	: Green
Battery low Indication	: Red
Protection	: No Load Protection, Short Circuit Protection, Reverse polarity, Reverse flow, Low Voltage Cut Off at 11.1V at 27° C, Load Reconnect, Over charge cut off 14.3V at 27° C, Over discharging, Module Reconnect
Lamp Mounting Configuration	: Base Up
Usage Duration	: Up to 4 hours on full Charge
Weight	: 3.235 kg
Dimensions Of Lantern Box	: 370x250x235mm
Loading Per Container	: 2500 Sets/40 ft, 1250Sets/20 ft,

## Solar LED Lantern

### Specification :

Module Rating	: 6V/2.1Wp
Module Type	: Crystalline
Battery Rating/Type	: 1.2V /1.5Ah Ni-mH
LAMP Type	: 32 nos of LED
Charging Indication	: Green
Battery low Indication	: Red
Weight	: 1.570kg
Dimensions of the Box	: 160 mm X 390 mm X 160 mm.
Loading Per Container	: 4500 Sets/ 40ft, 2500/20ft.

### Features :

- Light Weight and rugged Body
- Metal Grill for safety
- Upto 4 hours of light.
- Long Life Ni-MH battery for trouble free long life.

Products Approved by:

## Solar Torch

### Features:

- Easy Solar Charging.
- Eco Friendly and pollution Free.
- Lamp can be used for search light and Emergency Usage.
- LED light provides more bright and long life.
- Use for up to 3 hrs on full charging 8 hours in full sunlight.

### Specifications :

- 5 Super Bright LED
- Nickel Hydrogen accumulator
- Rugged Aluminium housing

## Solar Garden Lights

### Features:

- Ideal for Garden, Court yards, Pathways, Fountain Side, Pool Side .
- Automatic Operation.
- SS body for high aesthetics and ruggedness.
- Easy Installation. No hassles of complex cabling.
- Low on maintenance.
- Ni-MH battery for maintenance free operation.
- Day time Charging and night time illumination.

## Multipurpose Solar LED Light

### Features:

- Compact design, Light weight
- Strong, water-sealed lamp and stand
- Roof-mount solar panel includes 5m cord
- Dual-junction a-Si panel for improved cloudy-day charging
- Highest running Hrs. Can be run 16 hrs. in Lantern mode, if battery is fully charged.
- Maintenance free Long life .
- Operate for 4 hrs. in super bright mode, if battery is fully charged.

## Solar Decorative Lights Series

### Features:

- No need of power, works on solar.
- Epoxy sealed solar module.
- Different colors light source.
- Working time 10 to 12 hour.
- Battery with Long life.
- Available with 80 and 200 Pcs Colorful LED.
